University of Ottawa Institute of Mental Health Research
Canada

**How are brain and psyche connected?
A spatiotemporal approach**

Georg Northoff is Professor in the Departments of Neuroscience, Psychiatry and Philosophy at the University of Ottawa Institute of Mental Health Research, Canada. He is one of the globally leading neuroscientists who made seminal contributions to our understanding of higher-order cognitive phenomena like self and consciousness using brain imaging. Additionally, he is one of the founders of neurophilosophy by developing novel approaches to problems like the mind-body problem.
